Profile

I am recently pursuing BE Artificial Intelligence And Data Science Degree at MET BKC IOE Nashik.

As a web developer, I enjoy bridging the gap between engineering and design — combining my technical knowledge with my keen eye for design to create a beautiful product. My goal is to always build applications that are scalable and efficient under the hood while providing engaging, pixel-perfect user experiences.

When I'm not in front of a computer screen, I'm probably reading Science Fiction/Fantasy or Technical books.
